## Diamond casino heist always cash

I don't think it's a glitch but after doing the four times the heist I'm still getting only cash. Is a reason for this 27 comments 27 What is the Casino Payout Heist Heist? As you stay in Paradise's gambling glinting on the edge of Vinewood Drive, the diamond casino is surely an establishment that keeps the bucks big, right? If you are new to existing in DUA, they are essentially an online multiplayer activity where you draw out and exact a flight with your friends or other players online. This time the Grand Diamond Casino is your target, and after the casino update hit Los Santos earlier this year, we'll make sure there's plenty of money to go through. It's not as easy as rocking up with some fresh guns flying the place, you'll need to plan and strategy with friends. Fortunately, there's a ton of new DUA Casino Heist cars that make the perfect car scandal, especially if it all goes stomach up. But exactly how much money are you going to make? Well, here's our guide to the DUA Casino Heist payout you can expect from successfully infiltration the diamond casino. GTA Casino Heist Payout's DUA Casino Heist Payout is \$2.1m, but diamonds are back meaning you and your team can earn more of diamonds than your usual cash. Related: Check out our guide to the best GTA 5 cheaters you'll have to think about the team that worked equally as hard as you, so this will be divided between two to four players, and you'll need to factor in all Lester's hard work of course – as you can see below \$30k off, as well as other costs along the way. But the real reward is team work, isn't it? It seems the potential is way better than the reward itself with the DUA Casino Heist payout after spending is just over \$600k. GTA Casino Heist Diamonds payout in the Valentines Days, you could earn up to 50% more in diamonds on the cash top. The diamonds were removed from the DUA Casino Heist's paieu, but now it looks like they're back, and according to a doneminer, you'll have a higher chance to sack some gems. Podium Machines: Komoda3x GTA \$ & RP On-Vespucci Job Adversary Mode2x GTA\$ & RPG On- Special Business Cargo- RC Trial Time back in the Heist Casino, and a higher odds.#GTAOnline pic.twitter.com/5iwz25eFfH – Tez2 (@TezFunz2) July 16, 2020 If the GTA Casino Heist is nothing more than a dream now, here's how you can work towards this victory price and our guide on how to start the DUA Casino Heist casino with all the Casino Heist weapons we have discovered so far. If you'd like some more, you can get a leg up with DUA Casino Heist Twitch Benefits First or don't get the DUA signal jammers. Rockstar Games Rockstar Games have mixed up the rewards for the GTA Diamond Casino, but what are your chances of actually getting diamonds, gold, art work and cash on the mission? As GTA Online players will be aware, Grand Theft Auto Resist has a lot of planning and setup before you actually get in there Phase. Filling each of these can take time and let's face it, what people are interested in when opening up the vault is what they'll get inside. There is a possibility that stylus, for instance, are turned out of

rewards from time to time, as the cowardly slash is ever-changing. So let's take a look at the probability to spawn last reward, as of March 25. Rockstar GamesThe GTA Casino heist is one of the game's most lucrative in-game games, when stylus are available to grab tougher rewards. In the past, there have been times where Rockstar has guaranteed that the players who have never completed the heist before will stumble across diamonds for their first time, despite only covering one paieyo and we are well aware that members of the community will be looking to reap the rewards of the GTA liiste casino more than that. Read more: GTA Online players discover perfect way to stop 'god mode' If you don't run into an ongoing problem that turns out playing inside the tablet, unable to fly that pilot to the Diamond Casino heist, then here are the reward spawn rates – according to Rockstar Smaller TezFunz2. GTA Diamond Casino heist Rewards Rockstar GamesYou can also find expensive art in the GTA Diamond Casino heist, which will boost taking your team's work. Here you can see each of the rewards and the odds, using rates, that they are displayed in the volot when you split it open. As for stay rates, the smallest say that's because these are estimates that could just be higher or lower than each figure. Having in mind that these stats are only relevant to when stylus are available as part of the DUA Diamond Casino – which is not always the case. Cash (~37%) Art (~28%) Gold (~18%) Diamonds (~15%) Casino Heist Odds Valuable Content: Cash - ~37% Art Works - ~28% Gold - ~18% Diamonds - ~15% #GTAOnline - Tez2 (@TezFunz2) March 21, 2020 How much is the DUA Diamond Casino worth? Without diamonds activated at the game, GTA Diamond can be worth up to \$2.1million, which will obviously be split between every player who takes part in the heist. It's worth noting, however, that those taking total can be hard to take in-full. You'll have to hack vault doors to get access to the max spots, not to mention avoiding receiving injections during the save. Damage taken and looping in - but will decrease the amount, so watch out for that. Lester is also asking around \$60k to cut it. With stylus included, the potential value of the mission makes Spike – like that many players were interested. Therefore, when the stylus is found, the casino might be worth up to 50% more than usual (about \$3 million). The easiest way to complete the diamond casino GTA diamond heist Rockstar GamesGetting in vault often while available is key to finding them. So what's the easiest way to fill the reluctant casino? There are three ways to attack the GTA Diamond Casino, and these are: Aggressive, Silent and Con at Big. The first is much more, quite aggressive to say the least. It requires your team to gun the way through the casino's security in order to make it in and out of the vault, blow it open with thermal charges. The second, Silent, is probably the tricks of the three, as the group of players will have to sneakily get all the way to the casino with just a handgun. Read more: GTA 6 fans disappointed as 'fruit' date reveals proved strong lately, and probably the easiest to finish, is the Big Con. For this one, you simply choose a disguise and sneak right the way in, driver open the vault, and get out of there with such little contact with enemies as possible – although there will be a lot of police waiting outside for your escape. So there you have it! You now know how many times the stylus is displayed inside the Diamond ult casino, how much the entire thing could be worth, and the easier method to get them. Hopefully, you'll bag some stylus in no time. We have detected that JavaScript is disabled in this browser. Please enable JavaScript or switch to a supported browser to continue using twitter.com. You can see a list of supported browsers in our Help Center. The vault you are shooting in GTA Online Casino Diamond Casino Heist can have anything of cash and art in gold, or even diamonds. The payout varies depending on the type of content you get. Cash is the most common pile, followed by art works, gold and finally diamonds. Maximum Potential Payout & Payout Vault Contents Payout when using Silent & Sneaky Approaches the value of your heist haul with maximum potential payout increases as the raioity of the vault content increases. In table below we show you the maximum potential payout and take that you can expect for each vault content type. The amounts listed prior to Lester's cut (which will be 5% of the total score), any penalties taken (see 'Avoid Damage' below), pay your crew and of course divide the remaining taken with your fellow players (the final Casino Heist is a 2-4 person heist). Casino Heist Maximum Payout Table Vault Saint Maximum Potential Cash Payout \$2,115,000 Art \$2,350,000 Gold \$2.5 85,000 Diamonds \$3,619,000 Note that first time you do the hesit you will still get cash, and on subsequent attempts you might find art, gold or stylus. It's preferable to get art on cash not only because you earn more, but the paintings themselves are actually easier/faster to leave. As you can see in the chart above, gold and ultimately stylus are easily the most profitable types of kish though. Type Probability Vault Rarity / Probability Cash Ownership Common Gold Artwork Rare Rare Diamonds Very Rare / Event Driven Who Will Receive is completely random, but some quitters will appear more often than others. Indeed, it correlates into the maximum potential payout types of them. So cash is more common, followed by art works and so on in diamonds. Note, however, that it appears Rockstar has the ability to adjust the probability of finding a particular kind of quitter. For example, during the Valentine's Day events of 2020, it was observed that finding stylus (usually the race) became a lot more common/easy. Hard Mode approach when you're making the Heist Casino you can't use the same approach twice in a row (it will be closed). However, you can return to a previous approach if you use a different approach in the theme (such as do aggressively, then Big Con, then go back to Aggressive). The red skull indicates that this approach will be done on hard mode. Plus, the approach you're repeating (aggressively in our example) will now have a Red Skull icon on it (as seen above) indicating that hard/above tricky mode will be activated if you continue with that approach again. This means that the rangers will be stronger, there will be more of them and their detection rate will be higher. It will also have six locks destroyed on the stomach instead of the normal card, with two fingerprints done (instead of the regular one). You get a moped bonus for all this effort added though – a 10% increase on the actual potential takes account of regular difficulties! You can check out a video of us making Hard Mode and Untie Stylus here. Hard Mode prep chart when stylus will be loosened by using the Big Approach Avoidance Damage There is also no guarantee that you will walk away with the exact amount stated in this guide because as you get in combat situation and take damage you will lose a small amount for each hit you take. The amount loss is between 0.12% – 0.26% of the total money you are bringing at the moment. In practice, that means about \$2,000 lost per shot. That's why we always recommend you choose either the Big Approach or the Silent Approach & Sneaky for maximum profit, even if they are bit dreadful. The aggressive approach is fun and quick, but you risk losing quite a bit of taking you due to the amount of damage you will inevitably suffer. Crews and Cutting Lester's An example of the paieut from the Big Le calculate your final paieyo you also need to take your crew member' and cut lester into consideration. Lester will take 5% of the total amount and your crew (hacker, driver, etc.) payment will vary depending on who you chose. After that, it is time for you and your status-mates (the final ezis is for between 2 to 4 players) to split the rates among yourself. If two players carry out the workplace then you can walk away anywhere between the GTA \$400,000 to GTA\$800,000 each. Looting the diamonds to difficult prep mode when the Stylus Looting using the Great Approach ability to turn off diamonds from the casino is actually closed when Rockstar first released the Diamond Casino Heist content. However, we then discovered that it was blocked during the week of February 18, 2020 (namely, Valentine's Day). It has now been confirmed that Rockstar has the ability to turn stylus left over and over, and that they will allow it for certain events, promotions or other important dates. Looting stylus allows you to take the maximum possible payout from the Diamond Casino Heist, which is \$3,619 million. Once your support crews and cut the Lester out, the remaining amount for players is \$2,714,250. Vault Time Maximize the amount of time you get inside the vault is essential. Every second counts when it comes to untie. Whenever you choose the hacker for you to hesitate to you we recommend that you always go for the best intrigue available, which is Paige Harris and Avi Schwartzman. Paige is available by default and takes 9% of the cut. It gives you 3 minutes and 15 seconds of the tablet. Notice takes 10% off the cut and gives you 30 seconds minutes. We recommend notice as 15 seconds extra can really make a difference to your end payout. paige & Notice on the spring board the time it takes for animations to play out while you are loosened to be considered when working out the time you'll have to work in the vault. On top of that, if you're carrying out the Heist Casino using either the Big Approach or the Silent & Sneaky approach you must leave the volunteer before the clock runs out if you want out sensors. So adding these extra 15 seconds and Notice will allow you to leave the maximum content possible, increasing the final take you take. Every day Cash Secretary Vault during the elevator you can also grab some extra cash from the secret vault, which is on the floor was right next to the elevator. The switch to open up the vault's secret door is in the CCTV room next to the elevator. You can expect somewhere between \$50,000 to \$100,000 to be in there. It will vary from reluctant though. The switch (circle in red) that opens the Secret Door Vault (secret of green) the Vault door (the green circle) that has cash every day has time to grab the money in this secret vault you also get a premium for doing so called Daily Cash Grab, it gives you a 100 RPG bonus too. Daily Cash Tougher Premium Healist Cap Limit on the maximum amount you can take from one heist is GTA\$3.619 million. This means that even if you somehow get more than that capped amount, it will in no use since the maximum you will be able to walk away and is still just GTA\$3,619 million. This max number is possible when you leave stylus only. Gold Bar Glitch had a glitch (now plate) that would let you answer gold bars after you picked up all but the last one. Once you've left with just one gold bar on the tray, you might just come back from the animation rationalization and start taking them again. Then, when you were in the grain position tougher grain again, the gold would respond. The glitch only worked once every gold cart / tray. Using this glitch some players reported able to get up to \$4-\$5 million. However, even so, due to the GTA of \$3.6 million, still only took the lower amount. This also means that any other glitches that supposedly let you grab more than \$3.6 million are useless. useless.
